

2005 RESULTS OF THE ADVANCED PLACEMENT (AP) EXAMINATIONS AND THE INTERNATIONAL BACCALAUREATE (IB) EXAMINATIONS

Advanced Placement Results

Since 1984, each school district in South Carolina has been required to provide Advanced Placement (AP) courses in all secondary schools that include grade eleven or twelve. These classes prepare students for the national AP examinations. Students who score 3, 4, or 5 on an AP exam are, in many instances, considered qualified to receive credit for the equivalent course(s) at colleges and universities that give credit for AP exams. The data in this document are presented for high school students who participated in AP courses in the state's public schools and took at least one AP exam during the 2004–05 school year.

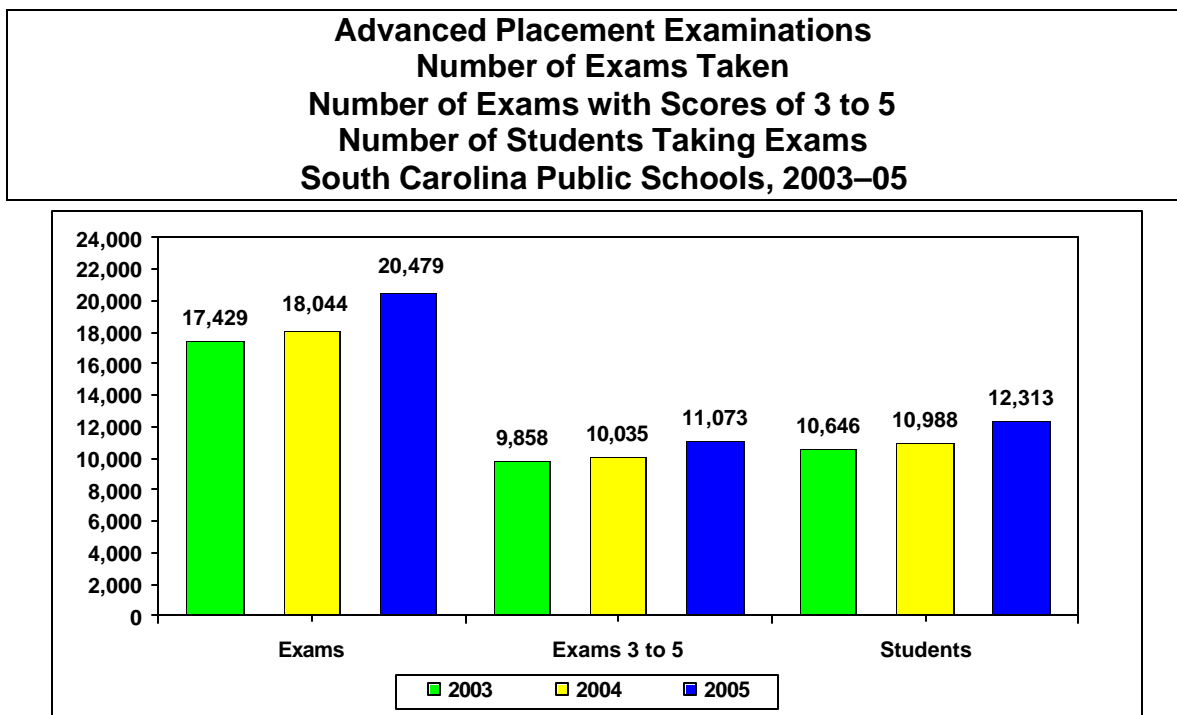

**Percent of AP Exams
with Scores of 3 to 5
South Carolina Public Schools, 1991–2005**

The percentage of examinations with scores of 3 or higher for South Carolina public school students in 2005 was 54 percent (11,073* out of 20,479*). For the nation, during the same period, the percentage of examinations with scores of 3 or higher for public school students was 58 percent. The number of exams taken in South Carolina public schools rose from 18,044 in 2004 to 20,479* in 2005, an increase of 15 percent, and the number of test-takers rose from 10,988 in 2004 to 12,313* in 2005, an increase of 12 percent.

*These data were provided by the College Board on August 29, 2005. This report does not reflect any changes the College Board may have made after August 29, 2005.

The chart below provides information on the number of AP exams taken, the number of exams with scores of 3 to 5, and the number of public school students taking exams in South Carolina public schools during the past three years.

In 2005, 12,313 South Carolina public school students took 20,479 exams in 34 of 34 AP exam areas (students could take more than one test). The five most-taken AP exams were, in order, United States History, English Literature and Composition, English Language and Composition, Calculus AB, and Biology. Least-taken exams included Comparative Government, French Literature, and Latin Literature.

In 2005, 51 percent of the 11,727 exams taken by female public school students in South Carolina received scores of 3 to 5; 58 percent of the 8,752 exams taken by male public school students received scores of 3 to 5; 27 percent of exams taken by African American public school students received scores of 3 to 5; and 58 percent of exams taken by white public school students received scores of 3 to 5.

The table below provides information in alphabetical order on the AP exams that were taken by South Carolina public school students in 2005, the numbers of 3 to 5 scores, and the percentages of 3 to 5 scores. The College Board did not provide score data (--) on groups including fewer than five test-takers. The State Department of Education does not provide performance data (--) for subgroups smaller than five in the scores category.

International Baccalaureate Results

The International Baccalaureate Organization (IBO), founded in 1968, is a nonprofit educational foundation based in Geneva, Switzerland. The foundation offers a comprehensive two-year curriculum—available in English, French, and Spanish—that allows students to fulfill certain requirements of various national education systems.

The IBO's Diploma Programme is a high school program offered to students in the final two years of school and requiring that a candidate take one subject from each of the following six groups: (1) the "Language A1" group is the student's first language and includes the study of selections from world literature; (2) the "Second Language" group is a language and literature course in a language other than the student's first language; (3) the "Individuals and Societies" group includes courses such as geography, history, psychology, anthropology, and business and management; (4) the "Experimental Sciences" group includes biology, chemistry, physics, environmental systems, and design technology; (5) the "Mathematics and Computer Science" group includes four math options related to the candidate's anticipated need for math beyond high school (for example, a math course intended for students who will take higher-level math in college related to subjects such as physics or engineering); (6) the "Arts and Electives" group includes visual arts and music and theater arts, as well as Latin and classical Greek, along with the option of a second subject from groups 1 through 4 or a further course in mathematics.

Each test in the subject groups is graded on a scale of 1 to 7. Below is a table displaying, by school, the 2005 results provided by the IBO on August 24, 2005, for South Carolina public school students taking IB subject-area tests and receiving a score of 4 or higher (4 = satisfactory performance; 5 = good; 6 = very good; 7 = excellent).

High School	Number Taking at Least One IB Subject-Area Test	Number of IB Subject-Area Tests Taken	Number of Tests with Scores of 4 or Higher	Percentage of Tests with Scores of 4 or Higher

Below is a table displaying, by school, the number of South Carolina public school students who were 2005 candidates for diplomas (students in the second year of the two-year IB program can register as diploma candidates when testing), the number who were awarded diplomas, and the percentage of diplomas awarded. Where fewer than five diplomas were awarded, no results are given (--). No data were provided by the IBO regarding diplomas awarded for Aynor High School.

High School	Number of IB Diplomas Attempted	Number of IB Diplomas Awarded	Percentage of IB Diplomas Awarded
